

Lessons Instructor Scheduling Guide

Purpose

This guide is designed to provide guidance in effectively scheduling Lessons Instructors.

Instructor Scheduling Requirements

- Instructors are provided a rolling two-week schedule on a nightly basis. This schedule is emailed to instructor Guitar Center emails and will be integrated into the Company's Timekeeping System (Dayforce). Mutually agreeable changes to the schedule will be discussed with the instructor.
- Instructors may clock in no earlier than 5 minutes prior to the first lesson of the day to set up and no later than 5 minutes following the end of their last lesson.
- Instructors are required to clock-in and clock-out via Dayforce for gaps between students that are more than 60 minutes.
 - California Stores ONLY – instructors are required to clock out for gaps between students that are more than 90 minutes.
- When not clocked in, instructors are required to leave the premises and avoid engaging in work activities. **Ex:** Instructor has a student at 4:00 PM and their next lesson is not until 6:00 PM. The instructor must clock-out 5 minutes (or less) after their last student (4:35 PM). The instructor must clock in no more than 5 minutes before their next lesson (5:55 PM).
- Instructors with gaps that are 60 minutes or less (90 minutes or less for CA stores) should be instructed to use non-teaching time to participate in activities assigned by Management as described below.

Schedule Non-Teaching Time

When an instructor is not scheduled for a lesson yet is clocked-in for paid work time between lessons in gaps less than 60-minutes (less than 90 minutes for CA stores), it is designated as scheduled non-teaching paid time. This non-teaching time is compensated at the instructor's base rate of pay and counts against the store's non-teaching time. Such time includes but is not limited to: (1) clocking in more than 5 minutes prior to the start of a scheduled lesson, (2) clocking out more than 10 minutes after the end of a scheduled lesson, (3) scheduled floor time, and (4) scheduled on-the-clock gaps in the teaching schedule.

As we seek to maintain operational efficiencies and increase students, it is important for Instructors to maximize the value of their time during their scheduled shift. The time spent in store that is not used for teaching should be spent in the following ways:

1. **Check, review, and respond to Guitar Center email**
 - The email inbox is up-to-date and that all company emails have been responded to each working day.
2. **Re-engage previous Guitar Center Lessons students**
 - Contact cancelled students via phone and encourage them to resume their lessons.

Lessons Instructor Scheduling Guide

3. Check-in with current Lessons students

- Contact currently active and scheduled students via company email to check in for the week, follow up on progress of practice, and stay up to speed on the students' progress and musical development.

4. Review Student Lessons Plans

- To be fully prepared for each lesson requires a bit of planning and forethought. As such, it is recommended to compile notes and assignments for upcoming student lessons. Items could include compiling notes (or sheet music) on:
 - i. Songs the student may enjoy
 - ii. Techniques that may need improvement
 - iii. Lessons Showcase Recital preparation materials

Meal and Rest Periods

Store Managers, Lessons Leads and Instructors are to work together to schedule the appropriate rest and meal breaks in the best way to accommodate the instructor and business needs. Rest breaks are counted as time worked (at the non-instructional hourly base rate) and Instructors are not required to clock in and out. Meal breaks are not counted as time worked and Instructors are required to clock in and out. During meal breaks, Instructors are to be relieved of all duty for a minimum of an uninterrupted 30-minute interval and are free to leave the premises.

Please refer to the following chart when scheduling meal and rest breaks for Instructors:

Meal and Rest Breaks Provided Daily		
Hours Worked	Paid Rest Breaks	Unpaid Meal Breaks
Up to 3.5	One 10-minute	None
3.5 to 5	One 10-minute	None
5 to 6	One 10-minute	One 30-minute
6 to 10	Two 10-minute	One 30-minute

For any questions or concerns, please contact your supervisor District Manager, or Region HR Manager.
